Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Priority

1. Applicant has not complied with one or more conditions for receiving the benefit of an earlier filing date under 35 U.S.C. 120 as follows:

An application in which the benefits of an earlier application are desired must contain a specific reference to the prior application in the first sentence of the specification or in an application data sheet (37 CFR 1.78(a)(2) and (a)(5)). The specific reference to any prior nonprovisional application must include the relationship (i.e., continuation, divisional, or continuation-in-part) between the applications except when the reference is to a prior application of a CPA assigned the same application number. Also, the reference to the earlier application should include an updated status of the application, such as, now U.S. Patent No. "X".

It is noted that applicant has claimed benefit to an earlier filed U.S. patent application in the declaration.

Specification

2. The disclosure is objected to because of the following informalities: On page 1, line 18, "4,693,853" should apparently be replaced by --4,693,852--.

Appropriate correction is required.

Claim Objections

3. Claim 1 is objected to because of the following informalities: On line 11 of claim 1, "outwardly" is misspelled. Also, in claim 1, on line 12, "travel.while" should apparently be replaced by --travel, while--. Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(f) he did not himself invent the subject matter sought to be patented.

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Gordon '852 (Fig. 1).

6. Claim 1 is rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter. The instant application includes only claim 1, but names three co-inventors, which absent an unexpected showing would indicate that the three applicants of the current application are all inventors responsible for the subject matter recited by instant claim 1. However, U.S. Patent No. 4,693,852, which names only Larry R. Gordon as the sole inventor clearly anticipates the invention as recited by instant claim 1.

7. Claim 1 is rejected under 35 U.S.C. 102(g) as being clearly anticipated by Gordon '852 (Fig. 1). Please note the discussion in paragraph 6 above.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
